The Skyline Volkswagen T4/5/6 & Transit Custom Pop - top roof has been over 12 years in development and manufacture, we are always looking to move our product forward. At skyline we use an advanced vacuum moulding technique, which ensures we produce a superior rigid VW T4/5/6 pop top roof with no external fittings. This coupled with our water resistant canvas, gives us one of the best elevating roofs for Volkswagen T4/5/6's on the market today!

Skyline are a UK manufacturer using only UK sourced products.

We are also the UK market leaders in safety and now have full TUV approval for our T5/6 roofs and are ISO9001 rated!
